### Introduction

---

Agile Codex SEO Extension for Magento 1 includes almost everything need to make your site SEO better. IT has extended XML and HTML sitemap and rich snippet / structured data support. It help you to put your site in top of popular search engine line Google, Bing, Yahoo etc. and bring more customer to your Magento store.

Compatible with Magento: **1.9.x**

### Installation

---

Never do anything directly on a live store. First setup and test on a development domain (i.e. “dev.url.com”).

#### **Temporarily disable Magento cache**

To avoid any possible issues with the installation we recommend disabling Magento cache before proceeding with the installation and re-enabling it once the install is complete.

1. Log in to your Magento admin
2. Access System > Cache Management
3. Click on “Select All” and in the “Actions” drop down select “Disable”
4. Click on “Submit” and once the page reloads **log out of the admin**
5. If you have the Magento compilation enabled, remember to disable it before proceeding.

## Cache Storage Management

Flush Magento Cache

Flush Cache Storage

Select All | Unselect All | Select Visible | Unselect Visible | 0 items selected

Actions Refresh Submit

Cache Type	Description	Associated Tags	Status
<input type="checkbox"/> Configuration	System(config.xml, local.xml) and modules configuration files(config.xml)	CONFIG	DISABLED
